

18 November 1982

MEMORANDUM FOR: Director of Central Intelligence  
FROM : SA/DCI/IA  
SUBJECT : Cabinet Meeting, 19 November 1982

1. Tomorrow's Cabinet Meeting has been called to review the FY-84 Budget. You should be well prepared for this discussion based on Monday's SIG(I) meeting on the FY-84 NFIP. I have included your notes, along with the Budget Status Report for your reference.

2. I understand that you are planning to stay for the Cabinet Council session, which is scheduled to follow immediately after the Cabinet discussion. There are two topics on the agenda:

- Challenges to US Research and Development. OGI has prepared a paper on the challenge proposed by foreign R&D efforts as backup for your discussion. In addition, I included an OSWR assessment of Soviet efforts to achieve self-sufficiency in high-technology areas.
- DISC Alternative. Treasury is preparing a paper which is suppose to be distributed before tomorrow's meeting.

3. Please let me know if there is anything else you would like to have for these two meetings.
